SKILLS

Ruby

Rails

SQL

HTML

Sass

JavaScript

jQuery

React

Flux

Git

PROJECTS

MapMyPath • Ruby on Rails, React.js, JavaScript

[Live](#) • [GitHub](#)

Full-stack path mapping app inspired by MapMyRun

- Integrated Google Maps API using settings that make creating paths seamless by manipulating data from the API to provide the user with distance and destination in real-time
- Protected user data by only storing hashed passwords using BCrypt
- Applied appropriate CSS for intuitive and responsive design
- Utilized ActiveRecord relations and jQuery to minimize database queries

Ducks Hunter • JavaScript, HTML, EaselJS

[Live](#) • [GitHub](#)

A browser shooter game inspired by the classic Nintendo game, Duck Hunt

- Combined use of sprites and EaselJS ticker function for smooth visual animation and rendering
- Layered EaselJS containers for animation to render in their appropriate positions

boreDOM • JavaScript

[GitHub](#)

JavaScript library for DOM manipulation inspired by jQuery

- Developed framework that allows users to traverse and manipulate DOM elements with ability to add/remove event listeners and make asynchronous AJAX requests
-
